The other fundamental that the readers have to get right is the Heaven Stems and Earth Branches. BaZi is fundamentally a Five Element study, so bear this in mind. They explained the 10 Gods as subtle heavenly energy landing on Earth through Man and his mind, having an effect similar to a bridge between two spheres of existence.

By using the 10 Gods in Bazi, it simplified the complex procedures in analyzing Joey Yap Journey through the comprehensive view of the Four Pillars of Destiny analysis encompassing the 10 Gods in virtue of Persons, Places and Matters with this fourth instalment of the Destiny Code series. Many Flying Stars books are heavy on theory or are orientated on giving the reader the technical skills required to plot a Flying Stars chart.

Everybody will get much of knowledge by reading a book. IMHO, some of the English names that is commonly used don't reflect the gods' true identities.
