If I try too hard to be a part of their lives, they don't like it. This isn't a "self help" book, but there is an awful lot of good stuff contained in it that can be used to help yourself and your family. I have a good one!

It is not an easy read. So don't beat yourself up. The overriding theme of the book is simple. This situation can get much worse if the stepmother has a child of her own with the father.
