Sports fans with any interest in science or records should pick this book up immediately! Overall, a painfully poor attempt at a book.

In determining the "perfection point" for the activities in the book, Brenku Apr 25, Fred rated it it was ok. Sep 21, Brian Sison rated it it was amazing Shelves:

Instead I learned that I could only endure so much and had to abandon the book. I author goes through the science of each sport and the physiology of the body as it performs different athletic tasks. Would you like to tell us about a lower price?
