The main characters are totally believable and the story backdrop realistic. I loved the fact that it was a story about a man who reconnects with God and it changes his life.

An honest account of a hotshot WWI pilot humbled by the destruction and helplessness of war. Paperback pages. For anyone who loves the poem High Flight, this book is an absolute must because it provides the depth and breadth of knowledge essential to understanding how and why young Pilot Officer Magee came to write one of the most revered poems in modern American history. I thoroughly enjoyed it, I look forward to reading some of his other material!

The firing command sequence in German that is recited at the end of the novel is what I was impressed by the school's Roll of Honour listing its pupils who had fallen in the First World War which included the Edwardian poet Rupert Brooke - whose writing style Magee emulated.
